Alberta Health Services

7 WAYS SAFETY

INTRODUCTION

At Alberta Health Services (AHS), we value safety and accountability. We are each responsible for the quality of patient care and the safety of our work environment. We need to take action to protect ourselves, our patients, our coworkers and our families from influenza and other communicable diseases.

The annual influenza immunization campaign for AHS and Covenant employees commenced on October 21st, 2013. AHS's target for the influenza immunization campaign is **50% of our staff reporting as immunized**. As of April 3, AHS was at 54.0% (49,734 employees). The key messages of this year's campaign were communicated to all AHS staff: **No patient should get influenza from our staff while in our care.** Covenant Health's target for the immunization campaign is also set at 50%. As of April 1, Covenant Health was at 54% (6,534 employees).

Notes on the display of employee immunization rates across the Alberta Health Services and Covenant Health sites/facilities:

- **Zone:** Calgary, Edmonton, North, South, Central Zones, and Covenant Health are shown at the top right hand corner. The Zone information is the overall immunization rate.
- **Workplace Location:** the location of the facility/site within the Zone.
- **Employee Influenza Immunization Rate - as of April 3, 2014 Percentage (%)**: Determines the influenza immunization rate within the specific facility/site as of April 3, 2014.
- **Employee Influenza Immunization Rate - as of January 27, 2014 Percentage (%)**: Determines the influenza immunization rate within the specific facility/site as of January 27, 2014 (last edition's immunization rates).
- **Difference in Rates between January 27, 2014 and April 3, 2014 Percentage (%)**: Determines the difference in the influenza immunization rate from the last edition (January 27, 2014) compared to now (April 3, 2014).

TABLE OF CONTENTS

Notes on data collection

- This data is reflective of information in the system as of April 3, 2014.
- Influenza vaccination is voluntary for health care workers. AHS employees can also consent or decline to report their immunization status to the organization.
- The rates reported are conservative. Individuals that have gone to public health or to third party providers (such as their physicians, their local pharmacy or other providers) and have not submitted their information to WHS AHS will not have their vaccination accounted for in this report.
